COMPREHENSION

Answer the following question.

Read the following passage and answer the questions that follow.

Jack and Liam were very hot. Therefore, in the afternoon they decided to go swimming at the local lake. They loved spending time in the water, racing each other and diving. As they swam, they heard faint cries for help. They quickly searched the lake and saw a small child struggling to stay afloat near the deep end. Without hesitation, Jack and Liam swam as fast as they could towards the child. Jack reached the child first and held him up to keep his head above water. Liam, who was a stronger swimmer, supported both of them and guided them back to the shore.

Once they were safely on land, Jack and Liam noticed that the child was unharmed but scared and exhausted. They helped him to become calm. Then, they noticed two people coming near them, looking frustrated. They thought maybe they were the child's parents. They called them and asked if they had lost a child. The child stood up and hugged the people, "dad! Mom" he said. They were the parents of the child that they rescued.

The child's parents, who had been searching for him, rushed over and thanked the boys abundantly. They praised Jack and Liam for their bravery and quick thinking. The boys were hailed as heroes by everyone at the lake. Jack and Liam felt proud and happy that they were able to save the child's life. From that day on, they always kept an eye out for others while swimming, knowing that care could save a life.
